CAREER OBJECTIVE

Motivated and detail-oriented Electronics & Communication Engineering graduate seeking a role as a **Junior Software Developer / AI Engineer**. Leverages strong technical competencies in full-stack development (React.js, JavaScript, Python, MongoDB, MySQL) combined with practical exposure to AI-driven applications and automated query systems. Eager to engineer scalable software, integrate intelligent machine learning models, and contribute to high-impact technical initiatives.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+)
AI & Web Technologies: AI Prompt Engineering, React.js, HTML5, CSS3, REST APIs
Databases: MongoDB, MySQL
Developer Tools: Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

Junior Software Developer Intern 2026

Software Solutions / Tech Team

- Engineered and maintained features across full-stack modules utilizing **React.js** for interactive frontend interfaces and **MySQL** for backend relational data management.
- Collaborated closely with senior developers to write modular, reusable code, perform thorough testing, and resolve production debugging issues.
- Utilized **Git & GitHub** workflows for seamless version control, continuous integration, and Agile sprint execution.

Web Development Intern 2024

Corizo Corporation

- Designed and developed responsive, user-friendly frontend web pages using **HTML5, CSS3, and JavaScript**.
- Enhanced UI performance across various browser platforms and mobile viewport layouts.
- Acquired hands-on experience in frontend architecture, modern UI design principles, and browser developer tools.

KEY PROJECTS

AI-Powered Resume Screening System

- Built an intelligent automated system that evaluates and ranks applicant resumes based on target job description criteria.
- Developed a responsive **React.js** dashboard for recruiters to upload candidate documents and review automated match scores.
- Integrated **MongoDB** to store candidate metadata and screening evaluations for rapid indexing and retrieval.

AI Chatbot for Customer Support

- Developed an interactive AI-driven conversational agent to automate responses to complex customer inquiries.
- Embedded the chatbot interface into a modern **React.js** platform backed by a **MySQL** database for full query logs.
- Optimized natural language logic and response workflows to significantly reduce user query resolution times.

Personal Portfolio Website & Student Management System

- Portfolio Website:** Designed a modern showcase site using **HTML, CSS, JavaScript** to present software projects and AI integrations.
- Student Management System:** Engineered a full-stack CRUD application for managing academic records with secure database operations.

EDUCATION

Degree / Certificate	Institution	Score / CGPA	Year
B.E. (Electronics & Communication Engineering)	Sethu Institute of Technology	CGPA: 7.3	2025
Higher Secondary Certificate (HSC)	Muthalamman Hindu Higher Sec School	80%	2021
Secondary School Leaving Certificate (SSLC)	Muthalamman Hindu Higher Sec School	80%	2019

CERTIFICATIONS

- Junior Software Developer** — CADD Technologies
- Web Development Certification** — Corizo Corporation (2024)
- NPTEL Online Certification** — Introduction to Industrial IoT 4.0
